Appeal for help for the children

Date:

To Whom It May Concern

Re; Orphanage in Stoikite, near Pamporovo, Bulgaria

We are a fund raising organisation and as such we have appealed for help with clothing and articles for the children at the above-mentioned orphanage.

I can therefore confirm that we are looking after 68 children at the moment whom are living in freezing conditions of sometimes 20 degrees outside and 5 degrees inside the institute. The reason for this is that the heating system is constantly failing and we have not raised enough monies for a new one but we are working on it. The heating system alone is going to cost €30,000. In the meantime I would like to appeal to you for donations by way of any of the following items:

- coats, sweaters, preferably fleece type , Jeans, T.shirts, footwear, hats, scarves, water proof
- gloves.wash bags, tooth paste, tooth brushes, hair brushes, loo roll, shampoo, soap, first aid, lice lotion
- nightwear, underwear, socks, blankets, duvets, pillows, sheets, towels, school bags, stationery, note pads

for children whose age ranges from 8 years to 18 years.

Please help us keep these children warm. These children are living in a building with no heat, broken windows, one blanket per bed, they sleep in what few clothes they have to try and keep the chill off their bodies throughout the night.

Thanking you in advance for all your help and assistance.

Regards

Amanda Heath
